FIG. 21

Figure 1 is a schematic diagram of a cylindrical device 100. The device consists of a central core 110, a shell 120, and a ring 130. The core 110 is composed of alternating layers of N and S. The shell 120 is a thick, uniform layer surrounding the core. The ring 130 is a thin, uniform layer surrounding the shell. A cross-section XXIII is indicated by a dashed line and an arrow. The ring 130 is labeled with 221, 222, 223, and 224.

**FIG. 25**

FIG. 27 is a schematic diagram of a circular structure. It features two concentric rings of rectangular elements. The outer ring is labeled 241 and the inner ring is labeled 242. A central circular area is labeled 246. A dashed line with an arrow labeled XXVII points to the center. Other labels include 243, 244, 245, 247, and 248.
